### Recommendation

I give my recommendation for the Halachic "Zemanim" calendar [of Zemaneh Yosef] created by Elyahu Jacobi [& Maor Na'im], which assists in knowing the schedule for prayer[s] & Shem'a as well as the times for sunset & nightfall. This is essentially helpful for everyone in knowing when Shabbat begins and concludes. Their deeds are proper and recognized by Hashem for the work that they've done. I bless them that they should attain greater heights in the Torah and fear of Hashem. May they live a long life, Amen.
